# 2.5 kW FS Kit

The NEW 2.5 kW FS Kit is a residential ground mount system that comes with all the solar mounting hardware you need to get the job done — FAST!

Introducing a NEW solution for small ground mount solar PV projects, the **2.5 kW FS Kit** from Schletter. The same proven **FS System™** installed in many of the world's largest, most robust solar systems is now easily applied to smaller residential and commercial applications. Prepackaged to hold two modules vertical and five horizontal, order by noon\* (MST) and order ships the same day. Up to ten kits may be purchased per order, per customer for same-day shipping.

***Call Technical Sales at 520-289-8730 or  
e-mail [sales@schletter.us](mailto:sales@schletter.us) to order today!***
